

As Indiana residents, my wife and I enjoy the peace that the Indiana "do not call" list affords. Before we signed up on the do not call list, we received at least six unwanted calls per evening. Since we joined the do not call list, our dinner time and private evening time has been much more enjoyable. Now that we have children, we appreciate the do not call list even more. We do not want to be bothered in our home by unwanted solicitations. Do not side with corporates, as they tend to annoy us by being too aggressive. Please allow Indiana to keep its do not call list in effect. Thank-you.
